

03/18/2020

Camping season is fast approaching. We're all aware of the current concerns about the coronavirus. As of today, we hope the pandemic will be controlled, treated and in the rearview mirror by the time we open. We are moving ahead to open as scheduled – but we are ready to follow the lead of our public health officials as the year progresses. If we are advised not to open, we will not open. **The safety and health of our guests and our employees is our unconditional top priority.**

As of now, per the Adams County Health Department, we are still opening on April 10<sup>th</sup> as planned. Currently we have not been advised regarding restrictions on campsites in the campground. As of this writing, our Clubhouse will be closed except for takeout orders. You will be able to take food and beverages from the restaurant and bring it to your campsite. Our store will be open but only two customers at a time are allowed in the store.

Customers are free to use the seating areas in front of the store, and in the mini golf area.

The Adams County Health Department has informed us that there is a limit of ten persons per campsite.

The bathrooms, showers and laundry should be open by the end of March. We are hoping to turn the water on to the sites by April 10<sup>th</sup> as Mother Nature dictates.

The health department has advised us to request our guests to refrain from coming camping if you are sick, have been around sick people or recently in a hospital.

We are also reinforcing long standing directives to staff to wash their hands at regular intervals, for the recommended 20 seconds, during the day and always after touching their face. As we move forward, we will be training our seasonal staff on taking steps to go above and beyond our regular practices and anything else that is currently required such as sanitizing tabletops, counter tops and doorknobs.

No one can guarantee that they can prevent the spread of the disease. We are not making any claims that we either can or will prevent all possibility of infections. But we promise that we will be taking steps above what is currently required by the health department once those service areas open for the season. If you've been with us before, you know we keep our pool, shower rooms, bathrooms and public areas clean and clear. That same diligence will be brought to bear to fight this virus.

We are directing our year-round and seasonal staff not to come to work if they are showing any signs of illness or if their family members are showing any signs. Their health and our health are our highest priority.

At this time our cancellation policy has not changed, but again we are closely monitoring the situation.

We will place your health and safety above all other considerations. We're optimistic that the brilliant minds working on the coronavirus will get us past the pandemic as quickly as possible. We will continue to keep you updated via Facebook, as well as activities planned.

Thank you for your understanding, cooperation and patronage – Pineland Camping Park Management
